FOR CUSTOM E-RATE SOLUTIONS

*"The School District of Pickens County awarded a dark fiber contract to Conterra through a competitive bidding process in 2018. Conterra helped us design our network to ensure reliability. We now have a network that is the envy of the southeast, giving our students and teachers the bandwidth they need for instructional innovation."*  
- Barbara J. Nesbitt, PhD, School District of Pickens County, Assistant Superintendent for Technology Services

Conterra's Network Solutions are **100% FIBER** to your schools and libraries. Delivered at the speed of light, fiber is faster, more reliable, and secure than copper or coax. A Fiber Optic Network provides the scalability to meet bandwidth growth well into the future. A Conterra Fiber Network delivered to your premise ensures that you can take advantage of all the important benefits fiber has to offer.

*"As always, Conterra goes above and beyond to make sure our network is functioning properly. Customer service has always been a huge difference in what makes Conterra stand out from the competitors. Thank you for your continued support and drive to make sure Acadia is satisfied with Conterra's service."* - Tina Atkinson, Acadia Parish School System, Technology Manager

**E-RATE SUPPORT**

Provides an unprecedented opportunity for schools and libraries seeking high speed broadband connections in both metro and rural areas. Our network services are 100% E-Rate Category 1 eligible.

**STRONG TRACK RECORD**

Provides WAN and Internet services to approximately 150 school and library districts with over 2,700 locations.
