Contact Us | Let's discuss how Conterra can power a better communication strategy to meet today's realities.

Conterra Hosted Voice: All the Features You Need, All in One Place.

Full Collaboration Suite:

More than just a dial tone, Conterra Hosted Voice provides a robust suite of collaboration tools, including voice calls, video conferencing, chat, and file sharing—all accessible from a single interface.

Microsoft Teams Integration:

We can seamlessly integrate our voice solution with Microsoft Teams. Users can make and receive calls, conduct video meetings, and manage voicemail—all within intuitive Teams interface. No need to switch between apps; everything happens right where your team collaborates.

Advanced Call Routing:

Our system offers intelligent call routing based on the rules you define. Whether it's time-based routing, geographic routing, or skill-based routing, we ensure calls reach the right person efficiently.

Voicemail and Transcriptions:

Never miss an important message. Voicemails are accessible through Teams, and our transcription feature converts voicemails into text for easy review.

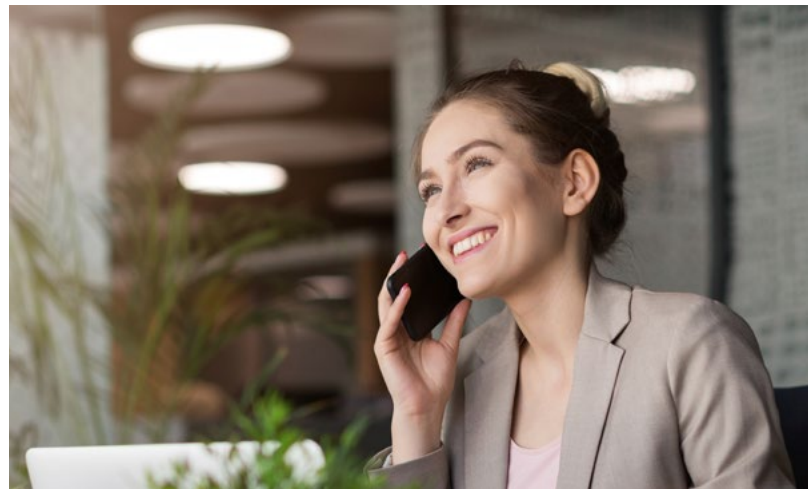

Why Conterra?

OUR NETWORK:

Our 99.99% reliable fiber-based, state-of-the-art network keeps you connected, productive, and ready for anything.

OUR PEOPLE:

Responsive, accountable, concierge-level customer service provides specific solutions that matter to your unique business goals.
