

THE NEXT GENERATION OF DEFENSE FOR A NEW GENERATION OF CYBER THREATS

Conterra's Managed Next Generation Firewall harnesses AI to keep your network up and running.

Phishing. Bots. AI-powered attacks. With AI accelerating increasingly frequent and sophisticated threats, businesses face mounting pressure on limited IT staff and budgets. That's why Conterra's Managed Next-Generation Firewall (NGFW), powered by Fortinet, provides advanced security backed by a 24/7 Security Operations Center (SOC). With AI-enabled threat detection, it helps keep your network resilient and your business running smoothly, no matter what challenges arise. Discover how NGFW helps IT leaders stay ahead for the next threat.

Managed Next Generation Firewall

More Than Perimeter Protection – Proactive Threat Detection

Business Firewall | Web/DNS Security | App Control | Managed Detection and Response

PREVENT AND DETECT

Ensure uptime and prevent incidents with proactive security tools to make it easy for IT staff to keep everything in check to save time and resources.

- ✓ Application controls
- ✓ AI-powered threat detection
- ✓ DNS and URL filtering
- ✓ Anti-botnet protection
- ✓ Zero-day security (file sandboxing)

MONITOR AND RESPOND

NGFW provides essential tools for quick, decisive action in critical moments so your business operations aren't disrupted.

- ✓ 24x7 SOC monitoring included
- ✓ Automated response
- ✓ Application quarantine capabilities
- ✓ Real-time alerts included

ANALYZE AND IMPROVE

Advanced insights help you strengthen defenses and stay ahead of emerging threats so you can outmaneuver bad actors.

- ✓ Ready-to-use reporting
- ✓ Managed services portal
- ✓ Customizable security profiles
- ✓ Threat intelligence updates
- ✓ Compliance reporting

What does Conterra's partnership with Fortinet mean to you? We have your back, 24/7.

24/7 SOC EXPERTISE

Fortinet's security operations team monitors your network 24/7, alerting you for all threats so you can stay focused on your priorities.

15 MINUTE REPORTING TIME

In the event of a critical incident, Conterra notifies you with the information needed for a quick response.

COMPREHENSIVE CONTROL

Manage policies, audit events, and see the full security picture in a glance with the easy-to-use Managed Services portal.

Complimentary Security Assessment: Don't Wait

Get a complimentary security assessment to uncover potential vulnerabilities and see how a managed next-generation firewall can protect your business.

Reach out to Conterra at **888-266-4836** or **www.conterra.com** to get started.

Security Struggles to keep up with Tech Adoption

Currently there are 3.5 million unfilled cybersecurity positions.

Too Much Noise

41% executives don't feel their security has kept up with digital transformation.

Too Many Threats

Misconfigurations caused **99%** of all firewall breaches through 2023.

Too Little Talent

Lack of skilled personnel was the **#1** factor preventing companies from defending against cyberthreats.

Strong Defense is Strong Business Sense.

Outdated security can take down more than your network. It can take down your business.

- **Keep Your Business Up and Running**

Strong security reduces downtime, so operations stay up and running without costly interruptions like DDoS attacks, spearfishing, and AI-powered probes.

- **More Security, Less Stress**

Automated, managed security helps your team quickly find and fix issues.

- **Free Up Your IT Team to Add Business Value**

Focus on projects that help grow the business, not costly security cleanup.

- **Stay Compliant and Protected**

Meet industry regulations and protect against data breaches and regulatory fines.
